Dear Senator the Hon P. Wong,

At ADAC, we are a small group who have put enormous energy into attempts to engage with federal parliamentarians. We have mailed letters to 227 federal parliamentarians for 17 months since December 2019. These 3,859 letters have addressed the reasons why our Federal parliament needs to take a stance to address real action on climate change.

Our group is just one of many who have been begging with heart and soul for their elected federal parliamentarians to act. With over 70% of Australians wanting climate action, it saddens us to say that our parliament is looking very weak both domestically and internationally. Even the notion of our Prime Minister not attending COP26 speaks volumes of total denial of public opinion.

This letter is simply a:

## **Plea for real Climate Action**

### **Australia needs our Prime Minister at COP-26**

### **Australians need to have some hope and faith in their elected Federal Parliamentarians**

Yours faithfully.
